

EASILY ABSORBED, GIVING THE SKIN A SOFT, VELVETY TEXTURE

# HA + COLLAGEN

THIS SILKY FORMULA DELIVERS POWERFUL ANTI-AGING INGREDIENTS TO REPLENISH AND HYDRATE THE SKIN

NEW

**This highly concentrated** anti-aging, moisture binding and skin repairing facial treatment contains hyaluronic acid microsphere sponge technology to help re-plump and “fill in” wrinkles. Dehydrated for greater penetration, these spheres are “micro-injected” into the tissues, where they swell up with water and increase in volume, resulting in smoother and more hydrated skin relief.

**Pure marine collagen** effectively helps to diminish wrinkles and age lines while providing a skin tightening and plumping effect by helping to tighten the cell connections.

Placenta extract (botanical origin) is effective in restoring skin elasticity and moisture while increasing cell renewal to provide a smooth and even texture to the skin.

**Multi-Peptides** help to increase Collagen and Elastin production to further reduce and slow the formation of lines and wrinkles.

**Corn derived live cells** help to improve the complexion of skin by providing it with nutrients. Makes skin feel soft, light, and velvety.

**Absorbs quickly** and leaves a smooth, non-greasy finish. When used prior to makeup, helps to achieve an even application.

**Directions:** Apply directly to the skin after cleansing, and prior to the application of any other facial product. Especially effective around eyes, forehead and upper lips. May be used on the entire face and neck. Use twice daily. Follow with moisturizer. Recommended for all non-problem skin types. **No.502**

# ANTI-AGE SERUM

PURE HYALURONIC ACID HELPS TO RE-PLUMP AND “FILL IN” WRINKLES
