CAUSED BY FACIAL EXPRESSION

TO FURTHER REDUCE AND SLOW THE FORMATION OF NEW LINES AND WRINKLES

This unique skin firming, lifting and toning treatment combines advanced anti aging multi peptides with lifting seaweed and moisture binding Hyaluronic Acid in a silky fluid suspension. Multi peptides help to reduce the intensity and frequency of muscle contractions. This assists in preventing and improving the appearance and depth of fine lines caused by facial expression. Contains Pentapeptides for improved Collagen and Elastin production to further reduce and slow the formation of new lines and wrinkles. The micro-lifting fluid forms a protective, breathable barrier to improve absorption and delay evaporation of active ingredients. Apply a small amount to targeted areas. Especially effective around eyes, forehead and upper lips. May be used on the entire face and neck. Best results are achieved when used twice daily. Follow with moisturizer. This product is recommended for all non problem skin types. No.555
