SPECIAL TREATMENT

CALMS AND SOOTHES FRAGILE DRY SKIN

POLISH & NOURISH

CONTAINS VITAMIN C, RETINOL, FRUIT ENZYMES
BENEFICIAL MINERALS, AND EXTRA PURE ESSENTIAL OILS

Pineapple Enzyme Scrub is an effective exfoliating, retexturizing, refining, and nourishing treatment. Efficient and non-abrasive exfoliation is achieved by the combination of Bromelain enzyme (which is obtained from pineapple) and the action of Jojoba beads. The enzyme helps to effectively remove excess surface cells, while the micro spherical jojoba beads dissolve and release their nourishing jojoba oil into the skin. The ultimate result is refined and moisturized skin. Directions: After cleansing, apply a small amount to wet face, and massage in circular motions. Rinse thoroughly, then follow with a moisturizer. Use twice weekly prior to mask. #120

Vitanol-A Complex is a liposome encapsulated system of Retinol, Vitamin C, Beta Glucans and Amino Acids. It softens and smoothes while helping to improve skin firmness. Retinol and Ascorbic Acid are potent stabilized anti-aging vitamins that are very effective in helping to visibly reduce the appearance of fine lines, wrinkles, age spots, sun damage, and large pores. Direction: Apply directly to the skin after cleansing, or prior to the application of any other facial product. Best results are achieved when used twice daily. #501

Bio-Effective Night Cream is an active, highest quality, anti-aging skin revitalizing and regenerative treatment. This cream offers exceptional skin benefits due to its exclusive properties based on live cell complex, hyaluronic complex, mucopolysaccharides, natural vitamin complex (A,C,B,D3,E), selected botanical extracts and natural proteins. Recommended for all types of, non-oily, skin as an anti-aging treatment cream. Directions: After cleansing and toning, use once or twice daily. #403

Collagen Treatment Masque is a luxurious and nourishing treatment recommended for normal, normal to dry, dehydrated, and undernourished skin. Nutrient rich native collagen, cellular complexes, amino acids, panthenol, vitamins, and natural oils help to increase the moisture level, prevent early appearance of wrinkles, and help the skin breathe easily during cell renewal process. Use twice weekly after Pineapple scrub. Directions: Spread a small amount over the entire face, avoiding the eye area. Leave on 15-20 min., then rinse with tepid water. #604

Caution: Always consult your skin care professional prior to starting treatment. Your skin care professional will recommend a course of treatment for you based upon the individual factors associated with your skin type and condition. The protocol listed is only a suggested treatment plan for normal to dry skin based on past results and most popular items for this skin type. Your skin type and condition may require a modified treatment plan which may include only some of the items listed.

NORMAL TO DRY SKIN
