

# PINEAPPLE ENZYME SCRUB

This is an effective exfoliating, retexturizing, refining, and nourishing treatment scrub. Efficient and non-abrasive exfoliation is achieved by the combination of Bromelain enzyme (which is obtained from pineapple) and the action of Jojoba beads. The enzyme helps to effectively remove excess surface cells, while the micro spherical beads dissolve and release their nourishing Jojoba oil into the skin. This process produces improved skin texture and leaves the skin with a luminous glow. The ultimate result is refined and moisturized skin.

**Key Ingredients:** Aloe Vera Gel, Glycerin, Seaweed Extract, Jojoba Oil, Chamomile Extract, Sodium PCA, Papaya Extract, Pineapple Extract.

**Directions:** After cleansing, apply a small amount to wet face, and massage in circular motions. Rinse thoroughly, then follow with a moisturizer. Use once to twice weekly.

**Professional in salon use:** Can be used in salon as gel based scrub. Use after cleansing and either prior or after steam to help root out impurities, blackheads and improve skin texture. Massage gently in circular motions for 2-5 minutes. Avoid eye area. Rinse thoroughly, then follow with an appropriate serum, soothing mask followed by moisturizer. Helps to improve the penetration of following treatments. This is a mild strength scrub with spherical non abrasive beads. The enzyme level of this product is medium to mild and suitable for sensitive skin types. For a stronger in-salon enzyme treatment with steam, use the Phytozyme Exfoliation System.

**Key ingredient functions and product benefits:** Chamomile, Pineapple, Papaya and Seaweed leave your skin moisturized and cleansed without drying it out. A fresh pineapple scent. # 120
