

LIFTING MASK

A Professional, Two Part Seaweed Peel Off Modeling Mask System

This two part system allows the Esthetician to offer a truly exceptional professional treatment mask for the face and the body. The Lifting Mask is great for facial toning, hydrating, and purifying. It is recommended for all types of non-problem skin. Part one: Mask base (powder). This powder base, when activated, provides a stimulating and detoxifying professional mask treatment. Rich in Minerals, Seaweed, Lecithin, Chlorophyll, and Plant Extracts, it also helps to soothe and remineralize the skin. Directions: 1. Apply a thin layer of a moisturizer or nourishing cream (appropriate for client's skin type) onto the skin. 2. Apply petroleum jelly liberally to eyebrows, hairline, and any other facial hair. 3. Combine one part powder base with two parts liquid mask activator (1:2) in a mixing bowl. 4. Mix until a smooth paste is achieved (an additional small amount of activator could be added to achieve desired consistency). 5. Apply immediately in an even, thick layer over the face. Setting time for the mask is about 15 minutes. 6. When set, gently peel from the skin. 7. Remove any remaining residue with water and cotton. Note: Custom blending ingredients from our product list (i.e., Aromatic Oils, Vitamins, Herbal Extracts), can be added to the mixed mask immediately prior to application in concentration of 1.00% or less.
