

TURMERIC

BRIGHTENING PASTE

This professional grade treatment paste helps to revitalize, brighten and promote skin cell renewal, minimize pore size and leave a glowing complexion. The self heating effect gently encourages the pores to open while the minerals and clays clean thoroughly. Turmeric and Niacinamide (Vit. B3) provide brightening, antioxidant and anti-inflammatory properties while helping to improve skin texture. Perlite (natural, spherical volcanic rock) combined with pumpkin and papaya enzymes gently exfoliate the skin to improve the appearance of fine lines, age spots, freckles, and rough skin. Contains natural zeolite clay for additional detoxifying effect.

Directions: Massage onto lightly damp skin. Leave on for 2-5 minutes, avoiding the delicate eye area. Rinse away thoroughly with water. Use up to twice weekly. Follow with your favorite moisturizer. It is normal for the heating sensation to remain for an additional 10-15 min. after product was washed off.
